## **HARRISON STREET RESURFACING**

CHICAGO, ILLINOIS

### **COOK COUNTY HIGHWAY DEPARTMENT**

This project consists of the design and preparation of construction documents for the improvement of a 0.5 mile length of Harrison St. from Skokie Blvd. to Gross Point Rd. in Skokie, IL. The improvement included reconstruction and resurfacing, two (2) channelized intersections and a two (2) lane roadway. The project called for base patching, widening, scarification, base and surface overlay, curb & gutter and drainage structure removal and replacement, drainage improvements and striping. Local funding was used.

Construction documents included roadway, drainage, traffic control, signing and striping, cross section plans and details, special provisions, specifications, a construction schedule, and cost estimate.
