IL ROUTE 120 (IL. 47 to IL. 31) ROADWAY IMPROVEMENTS

MCHENRY COUNTY,
ILLINOIS

ILLINOIS
DEPARTMENT OF
TRANSPORTATION
DISTRICT ONE
SCHAUMBURG, IL

Engineering services for the preparation of contract plans, specification and estimates for roadway improvements including widening, resurfacing and reconstruction of IL Route 120 from IL Route 47 in Woodstock to IL Route 31 in McHenry all within McHenry County.

The project consists of three separate construction projects:

1. Roadway widening and resurfacing of IL 120 from IL 47 to Fleming Road. The widening is from a two lane section with shoulders and ditches to a three lane section with a continuous two way left turn lane with curb and gutter and enclosed drainage system. New traffic signals for the intersection with Raffel Road in Woodstock, Illinois.
2. Roadway resurfacing and new paved shoulders for the two lane rural section of IL 120 from Woodstock to McHenry. Pavement patching, traffic signal modernization, and intersection improvements are also included.
3. Roadway reconstruction from Dot Street to IL 31 within the City of McHenry from a four lane section to a five lane section with the middle lane being used for a common left hand turn lane. The improvement is within established right-of-way through the commercial district of McHenry. Traffic signal modernization includes five intersection interconnected, pre-emption receivers and a railroad crossing and realignment at Crystal Lake Road. A triple box culvert is lengthened to provide for the widening and new bike trail.
