

# COUNTYWIDE FIRE ALARM AND LIFE SAFETY SYSTEM EVALUATION

COOK COUNTY OFFICE OF CAPITAL PLANNING & POLICY

HOH provided consultation services for the evaluation of the fire alarm systems in 93 buildings. A 14 point questionnaire was developed and sent out to the building Cook County engineers. The questionnaires were evaluated for accuracy and a grading system was developed to determine the condition of each Fire Alarm System. It also determined if the existing fire alarm systems were in need of repair or replacement.

Additional site surveys were conducted on ten facilities to determine the adequacy of the existing fire protection and life safety systems. The Cook County Office of Capital Planning & Policy has initiated eight fire alarm system package replacements as a result of the study.

Type of building:

- Courthouses
- Office Buildings
- Correctional Facilities
- Health Care Centers
- Hospitals
- Support Facilities
